THE ROSE PETA

A MEMBER OF THE AMERICAN ROSE SOCIETY

CALENDAR

JUNE 11 - GPBRS PICNIC!!! JUNE 12 - September SUMMER!!! SEPTEMBER 26, GPBRS meeting, Mounts Auditorium.

CONTENTS

1. Presidents' Letter - summer care of roses

2. PICNIC INVITATION & INFO

3. Membership application, useful websites

4. Apple Cake Recipe from Holiday Party in December

5, 6. Kathy's garden in May. (Please send me photos of your roses and I'd love to include them next time!) 7. ARS membership and info 8. GPBRS Bd. Of Directors, Consulting Rosarians.

EDITORS NOTE: I LOVE TO GET FEEDBACK FROM YOU ALL. THIS IS YOUR NEWSLETTER, SO PLEASE SHARE YOUR NEWS AND YOUR PHOTOS.

KATHY

A Message from our Co-Presidents, Debbie and Geoff Coolidge

Greetings from Geoff and Debbie!

We love to watch the seasons change here in South Florida. The changes are subtle, but if you look closely you'll notice that there are a lot more parking spaces at Publix, the temperature is rising and the afternoon showers are back. We had a nice mild winter, not too cold with mild temperatures all the way through May. This resulted in excellent growth and bloom in the gardens.

We thought you'd be interested in the summer program we use at Cool Roses:

In May we applied a granular systemic insecticide and started our summer fertilizer program which keeps your plants nice and green but discourages new growth. In addition to less nitrogen on the roses, which slows their growth, we have stopped deadheading also. The goal is to keep lots of mature green leaves on your plants. They help cool your roses in the brutal heat of the summer as well as help remove the extra water in the soil from the heavy summer rains. Leaves also produce energy through photosynthesis which is used for flowers in the winter months but is stored in the plants stems in the summer. When we cut the roses in the summer that energy is wasted on spindly stems and inferior blooms and causes stress to the plants. The tender new growth that results from cutting attracts every insect in the state to your rose garden. In the winter months, the life cycle of most insect pest, from egg to grand kids takes about 40 days depending on the temperature. In the summer that same life cycle takes about 11 days so we have to be careful to avoid an insect infestation which further stresses the plants. We won't be cutting as usual but if you see a nice rose or two, cut them. We do a heavy cut back in the fall when the cool air returns. Have a great summer!

See you at the picnic on June 11 and in September, Debbie & Geoff

A Recipe worth saving:

This cake was a big hit at the Holiday Party in December, and was meant to appear in the January issue of THE ROSE PETAL. It got lost, and was found again as I prepared this mini-newsletter for Summer. As with all great recipes it has been handed down so often that we've lost track of its origin. Hope you try it and enjoy!

- Kathy Rose

APPLE CAKE

Prep. 15 mín.	Cook	Tíme 30-35 mín.	Makes 1 9"x13" Sheet Cake	
Ingredients:				
з eggs, líghtly beaten		1 ³/4 Cup sugar	1 cup oil	
1 tablespoon vanilla		2 cups flour	1 teaspoon salt	
1 teaspoon baking sodo	7	1 teaspoon cinnamon	1 cup chopped walnuts or pecans	
з сирѕ Granny Smíth (or other tart) apples, thínly slíced.				

Preparation:

- 1. Preheat oven to 375 degrees F. Spray or oil the baking dish.
- 2. In a large mixing bowl beat together eggs, sugar, oil, and vanilla.
- 3. Sift together flour, salt, baking soda, and cinnamon. Mix well into egg mixture.
- 4. Gently fold in apple slices and chopped nuts.
- 5. Bake for 30 35 minutes.

ENJOY !!!

In Kathy's May Garden:

Faith Whittlesey, HG 2005

This is quite a new rose for us, and has been blooming profusely since spring. Fragrant.

Mutabilis ch. before 1894

I love this shrub, often called Butterfly bush; it blooms pale yellow and turns pink and red as it matures. Bees love it..

Slaters' Crimson China 1790

Mutabilis (wider view)

This grows to be quite large, but is open and airy, very graceful. One of my favorites!

gpbrs.org

Double Delight, HT. 1976

Always a favorite, Double Delight delights the eye and the olfactory senses. Petals creamy white with red towards edge.

St. Patrick, HT, 1999

Carefree Beauty, S, 1979

This shrub is aptly named. It is virtually carefree, and never fails to bring a smile with its fresh face and yellow stamens.

Was there ever a rose like St. Patrick? Its intense yellow blooms last and last, both on the bush and as a cut flower. No scent, but gorgeous!

I'm always excited when Dainty Bess decides to bloom. Such beautiful burgundy stamens, and I think I detect a light fragrance. Wishful thinking?

Dainty Bess

Roses budded onto Fortuniana rootstock ..."The Exhibitors' Choice" Modern, Miniature and OGRs One of the largest selections of Fortuniana grafted Minis and Minifloras Custom Budding on Fortuniana by request Newest must-have roses from the top hybridizers We have Fortuniana budded Delbard Roses and David Austin English Roses!
